

Allure Shading System
By Lafayette Interior Fashions

Great Impressions has recently received the latest samples and information on a wonderful new shading system by Lafayette Interior Fashions (Lafayette). The Allure Shading System is a unique and stylish window product as well as versatile. It allows various degrees of light, can give the same effect as a sheer, or can also give complete privacy. The Allure Shading System comes in 7 patterns and 29 colors to match any décor. It allows for fabric widths up to 96” and length up to 120”.

Katie Benson, Interior Designer and Columbus College of Art and Design graduate, describes it as, “unique and unlike anything we have had before.”

Set up an appointment with a member of our design team to view samples and receive pricing information. You may also visit Lafayette’s website, as follows (<http://www.lafvb.com/shades.php>), for more information.
