

### *Words to Live By*

Great Impressions is now introducing unique and fun artwork for your home. Featuring original photographs, these exceptional pieces show everyday architectural elements from lamp posts to building columns, gathering attention from everyone. The photographs include Columbus area architecture, as well as photographs from places such as Niagara Falls, Canada.

Great Impressions' Interior Designer, Donna Crabtree, describes this creation as "unique, fun, high style yet friendly, architecturally interesting, and an overall great gift."

The artist began to see images of letters in everyday items around us. The artist's first work of art was created as a birthday gift for her father. The attention it gained made her realize the potential of a business that has become successful today.

"Words to Live By" is a great gift for weddings, birthdays, etc. The photographs can be printed in black and white or sepia and can be customized. We will be glad to do customize family names, children's names, sports teams, favorite words, etc. Please call us at 740-382-0398 for more information on custom work.
